

Some models have a screw down crown instead of a standard crown.

- **How to unlock the crown:**
Unscrew the crown by turning it counterclockwise. Then, pull it out for time/calendar setting.
- **How to lock the crown:**
Push the crown back to the normal position. Then, turn it clockwise while pressing it until it locks in place.
- **When using the watch in water:**
Before using the watch in water, make sure the crown is screwed in completely. Do not

- * Before using a water resistant 5, 10, 15 or 20 bar watch in water, make sure the crown is pushed in completely.

Do not operate the crown when the watch is wet or in water. If used in sea water, rinse the watch in fresh water and dry it completely.

- * When taking a shower while wearing a water resistant 5 bar watch, or taking a bath while wearing a water resistant 10, 15 or 20 bar watch, make sure to observe the following:
 - Do not operate the crown when the watch

The watch will be adversely affected by strong magnetism. Keep the watch away from close contact with magnetic
